

Subject: Contents change on the label for CCC recognized fuses (Partial)

Due to the CCC recognition renewal of our products, we will change the label description contents as per the CCC authority instructions.

1. Products affected:
CCC and UL recognized products in our 350GH, 660GH, 660CF, 660KH, 660KHK, 400KH and 400KHK series
(Product numbers ending: ULTC or ULTC-F)
For example: 660GH-100ULTC-F, 660CF-30ULTC, etc.
2. Reason for the change
Due to following the CCC authority instructions
3. Description of the change

Present labels	New labels
350GH**ULTC, 350GH**ULTC-F

No change

No change

4. Effect on products as a result of the change

- A) No change or effect on fuse itself.
- B) Most specifications that Hinode has already been providing to our clients do not include label information; hence no changes have been made. (For clients who have the specifications with the labeling information, we will make necessary changes upon request.)

5. Schedule of change

New label will be on our products and on box/wrapping from September 2015 delivery onwards. (Lot No. F150901~ or No. 150901~)

350GH**ULTC and 350GH**ULTC-F

The semiconductor protection symbol  on the labels have already changed as of May 2015 (Lot No. F150501~ or No. 150501~).

Thank you for your understanding in this matter.
If you have any questions, please do not hesitate to contact us.
