

## New and old product name comparison table

- Newly discontinued products** Items marked as "newly discontinued products" in the notes are provided only to customers who are currently supplying them. Please note that we do not accept new requests.
- Old Product Name** The only difference between the old product and the current product is the name. There is no difference in the product itself. From January 2022, we will stop accepting new orders for the old product name. For new orders, we will only replace with the current product name.
- Attached with alarm indicate** Products with the following characters in the product name are products with the original product name with an alarm fuse. (You can check if there is a blow by the alarm fuse)  
The alphabet to be added is as follows.  
25LKA/LKB series: "SB" at the end ex: 25LKA20**SB**  
66LKA/LKB series: "ST" at the end ex: 66LKA20**ST**  
60FHSeries: "S" at the behind of "FH" ex: 60FH**S**20  
GA·GB·GF·GG·GH·GL·FH·SH·SHA·SHB·SHL·FHM series is a "S" with the end of Product name.  
例1: 250GA-20**S** 例2: 250GH-020**S**
- The end of product code "-F"** As of August 2018, we have abolished the model name with -F "due to the completion of RoHS compliance. Only the model name without" -F "in the catalog is available.
- Approved Standard** In the past, UL / CCC certified products had the model with [UL] and "TC" added at the end, but from January 2022, the standard has been changed to a standard and the addition at the end has been abolished. .. Please refer to the standard column in the table below for product certification standards. For a list of certifications obtained in the product, please check our website and catalog.
- The products which not on this list** Items which product names have been changed or discontinued before November 2014 are not listed. In addition, there is a possibility that new items have been revised or abolished since the publication of this table. We are afraid, please check our website for the latest information.

Current Product Name	Past Product Name abolished	Approved standard	Notes
25LKA20B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKA30B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKA40B		UL	The type attached with alarm indicated fuse changes to "SB" the end of product name.
25LKA50B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKA60B		UL	The type attached with alarm indicated fuse changes to "SB" the end of product name.
25LKA75B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKA100B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKA125B			The type attached with alarm indicated fuse changes to "SB" the end of product name.
25LKB100B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKB125B		UL	The type attached with alarm indicated fuse changes to "SB" the end of product name.
25LKB150B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKB175B		UL	The type attached with alarm indicated fuse changes to "SB" the end of product name.
25LKB200B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKB225B		UL	The type attached with alarm indicated fuse changes to "SB" the end of product name.
25LKB260B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKB300B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
25LKB350B		UL TUV	the type attached with alarm indicator fuse is not certificated TUV, the name changes to "SB" the end of product name.
66LKA20			The type attached with alarm indicated fuse changes to "ST" the end of product name.
66LKA30			The type attached with alarm indicated fuse changes to "ST" the end of product name.

Current Product Name		Past Product Name abolished	Approved standard	Notes
66LKA40				The type attached with alarm indicated fuse changes to "ST" the end of product name.
66LKA50				The type attached with alarm indicated fuse changes to "ST" the end of product name.
